# Guideline of Installing Altium Designer

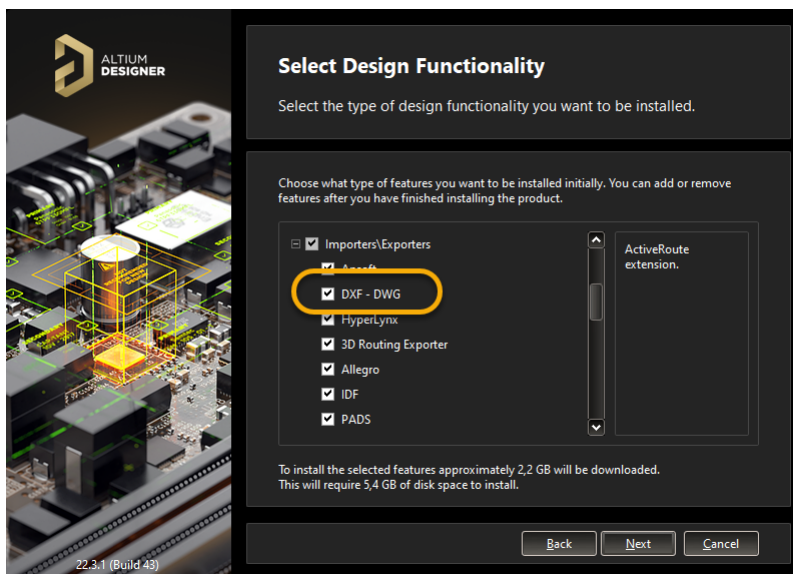

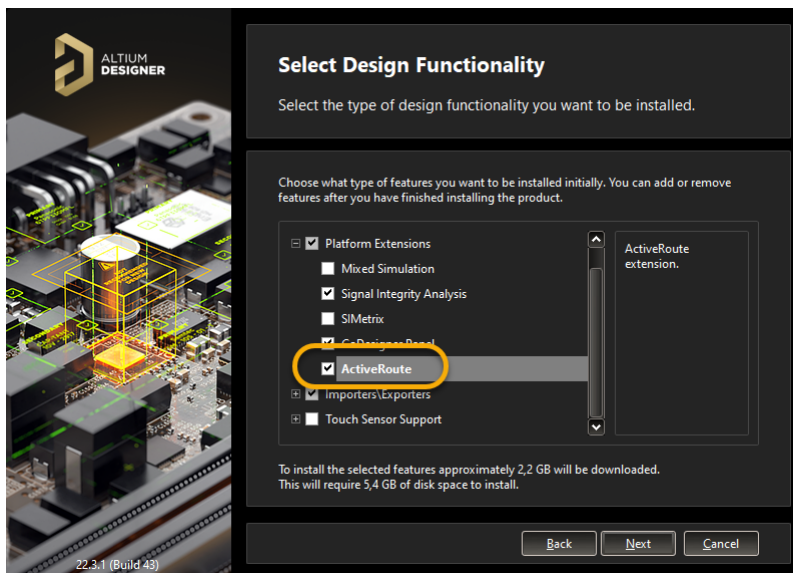

## 1.1 General Information

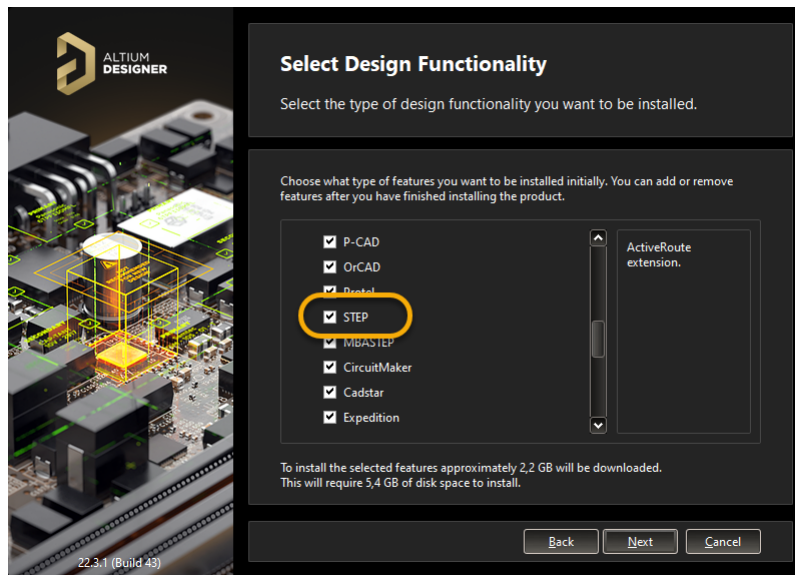

Prior of attending one of our Altium Designer Trainings, please make sure the settings in your Altium Designer meet the requirements below

## 1.2 New Installation

Please consider the following setting for a New installation, in order to have needed extension (System Extensions) and Importer/Exporter available during your training.

## 1.3 Existing Installation

### 1.3.1 Active Route

Please check whether „Active Route” is available at the platform Extension. In case this platform extension is not active yet, please activate it now.

The extension “Active Route” is used within the Essentials,- and Advanced Training.

### 1.3.2 DXF-DWG and STEP Import / Export and 3DPDF

Please make sure the Import of DXF-DWG is active in your installation.

If this Import is not active yet, please activate it now, to ensure this importer can be used during your Essentials training. The instructor will present a part of STEP Export resp. 3DPDF Export.

### 1.3.3 Libraries

Please ensure both of these libraries are available for you, *Miscellaneous Connectors.IntLib* and *Miscellaneous Devices.IntLib*.

These two libraries will be automatically saved with the installation process in the folder `C:\Users\Public\Documents\Altium\[Your Folder]\Library`.

You can find the libraries in your Altium Designer in the settings under "preferences".

If they are not integrated yet, please add the libraries now.

To add the libraries, please select "*Data Management- File Based Librarie*" and press *Install...- Install from File*. Please switch the folders to add the libraries, as shown in the images above.
